

People Of Distinction Humanitarian Awards

*By Al Cole from CBS Radio:
Host of the popular syndicated Talk Show "People of Distinction"*

It never hurts to say "***I love you***". The "**People of Distinction Humanitarian Awards**" will be one way of saying I love you. We will say "***I love you***" to the real **Stars** of our world – our "**Unsung Hero**" **Awardees** who have gone that extra mile to lift the burdens, lighten the hearts of the people around them.

We will honor the "**Unsung Heroes**" who have helped others in our world, without public or media recognition, simply because they knew that it was the right thing to do. Our "**Unsung Heroes**" will inspire the rest of us to keep up the good work that each of us silently does to ***add a little more love to someone else's life***.

Please join us in our efforts to locate these "**Unsung Heroes**", the real **Stars of our Human Family!** Please support them in supporting our work to find them and to honor them in Ceremony.

No, it never hurts to say "***I love you***" because the love we show another will be the love that will come back beautifully and unselfishly ***to each and every one of us!***
